Team: Vroom

Sprint: 1

Team:

- Ignatia Stellarista
- Sarah Nurwidhiafitri Sukamto
- Sefira Karina
- Thach Ngoc Nguyen
- Supun Kwan

1. Things That Went Well

What went well? What the team is happy about?

- *The planning, setup for GitHub and local workspace and organisation on Trello went well*
- *The tasks were radically discussed and allocated early*
- *Communication on Slack is responsive and proposed problems were resolved easily*
- *Meetings help removing any obstacles and let members learn from each other*

2. Things That Could Have Gone Better

What could have gone better? What the team could improve?

- *We should update the Trello board more frequently, so the members can keep track on the progress*
- *The proposed tasks in the backlog should be done on time*

3. Things That Surprised Us

What wasn't expected?

- Laravel framework is not too difficult for new learners

4. Lessons Learned

What you learned from the above points?

- *Good communication and small deadlines help the team make progress*

- *Trello board is very helpful to keep notes of what the members should do and other tasks outside the sprint backlog such as documentation*

5. Final Thoughts

Things to Keep:

- *Responsive communication*
- *Stable team velocity*

Things to Change:

- *Re-allocate the workload in sprint 2 accordingly to the team velocity, so that we can maximise the efficiency*
